***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: Claims 1-11 are allowable over prior art references because related references do not disclose reconstructing simulated data symbols, calculating a channel response from the actual received data symbols and the simulated data symbols using the Least Mean Square Algorithm, applying the channel response to the simulated symbols to produce virtual symbols, and taking a difference between the virtual symbols and the actual received data symbols to represent the actual channel noise.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
